

EFFECTIVE

April 1, 2010.

SUBJECTS

1. JR3 311, Intake Health Evaluation and Immunization.
2. JR3 380, Prescription Practices.
3. JR3 382, Medication Security and Storage.
4. JRG, Glossary.

1) JR3 311**INTAKE HEALTH EVALUATION AND IMMUNIZATION**

Item revised to add review of available medical records to health evaluation and change time period to conduct intake health evaluation for detention and treatment facilities. Item revised to include links to immunization schedule of the American Academy of Pediatric Association and incorporate foster care policy language for human papilloma virus vaccination. Revision includes grammatical changes.

Reason: Policy clarification.

2) JR3 380**PRESCRIPTION PRACTICES**

Item revised to include physician assistants and nurse practitioners as authorized to prescribe medications under physician supervision. Item revised to identify responsible staff and to add language for actions on youth transfer or release. Revision includes grammatical changes.

Reason: Policy clarification.

3) JR3 382**MEDICATION SECURITY AND STORAGE**

Item revised to include references to over-the-counter medications, provisions for ready access to time-sensitive medications and expanded inventory requirements. Revision includes grammatical changes.

Reason: Policy clarification.

4) JRG**JRG GLOSSARY**

Item revised to update glossary based on a periodic review. Revisions reflect changes in DHS organization, discontinuing participation in performance-based standards, and incorporation of cross-reference with the JJ field policy glossary. Revisions reflect new definitions of escape risk, informed consent, fetal alcohol spectrum disorder and Tanner staging as well as incorporation of foster care policy language for psychotropic medications.

Reason: Definition clarification and cross-reference.
